Dr. Spath and his staff exceeded all my expectations. I received a molar implant, which, as my insurance pointed out, is a major operation. Dr. Spath explained the procedure and conscientiously addressed any concerns. The operation was quick and painless; it helped immensely that he took the time to discuss and put my mind at ease. Speaking of ease, the operation room has a view that is comparable to the local resorts. In fact, the entire office is immaculate and appears to have more tech than an apple store. Overall, a great experience and I highly recommend.

Dr. Spath is a great dentist. After having an exceptional dentist who retired and left a void that was filled with several bad dentists. So, I am extremely happy that I have found Dr. Spath.

Dr. Spath is very passionate about his work and does an excellent job. His staff is extremely nice and professional. There is nothing about their operation that I would suggest they improve. His dental work is the best that I have ever had done.

I highly recommend Dr. Spath.
